Mexico-Bound Doctor at Airport

Subpoena Halts Trip

VANCOUVER (CP)—RCMP subpoenaed a Vancouver naturopathic doctor Saturday night as he was about to board a plane for a vacation in Mexico.

The subpoena, ordered by Coroner George J. Dawes of Prince Rupert, instructed Dr. E. E. Rogerts to testify next Friday at an inquest into the death on Boxing Day of three-month-old Bertha Mae Prince.

Dr. Rogers said here Sunday night he was handed the subpoena after his bags were already on the plane. He added that he had been planning the vacation in Mexico since before Christmas.

"Sensation-seekers always try to put the blame on someone," he said.

He referred to the deaths of Mrs. Margaret Mary Howard of North Vancouver, who died of starvation April 24, 1957, after eating only fruit and vegetables for several months.

Dr. Rogers had prescribed treatments for both women.

"The verdict of the coroner's court was a clearcut victory for me. The court found the North Vancouver woman starved herself to death against the advice of myself and other doctors. We all tried to get her to eat," he said.

"The woman, Mrs. Rasmussen, was the same thing . . .

"Everyone knew that was a win for me."

Testimony given at the Prince Rupert inquest stated the baby weighed one pound less Dec. 26 than it did when born Sept. 20.

Dr. P. S. Vassar testified the final cause of death was pneumonia and heart failure and that the baby's body showed signs of severe malnutrition.

Dr. Rogers is alleged to have prescribed special diets for the baby. He said she was suffering from "colitis, bronchitis and a mucous condition."

"When I was asked to accept responsibility for the baby, I said 'sure.' I thought the baby was fine. I didn't know the baby was sick, that in fact it had pneumonia."

Kennedy In Hurry

WASHINGTON (UPI) — Sen. John Kennedy (D-Mass.) is reported to be ready to jump the gun on the administration by introducing his own moderate labor reform bill today.

His new bill presumably will be similar to the measure that passed the Senate last year after critics failed in attempts to make it tougher. The legislation died in the House amid a controversy whether it provided really effective anti-racketeering provisions.

Strike Ruling Still to Come

Although 400 woodworkers of Flavelle Cedar at Port Moody went back to work yesterday morning, Labor Minister Lyle Wicks has not withdrawn his request for a supreme court ruling on the legality of their short strike.

The case is scheduled to come up in Vancouver Wednesday and could result in decertification of the union and cancellation of the existing work contract.

Riders Will Dig Clams To Help Buy a Horse

A clam-digging party is planned as part of the benefit dance Feb. 20 to obtain funds to buy a horse for a 13-year-old Saanich youth.

Wes Goddard, a past-president of Colwood Trail Riders, said the "expedition to the beach" will be held three or four days before the dance to obtain $150 to get a horse for Donald Fitzpatrick, 1590 Burnside.

Donald's horse — Bobby, a three-year-old gelding — was struck by a car and killed Jan. 8 on the Trans-Canada Highway near Portage Inlet.

Ignoring his broken leg and arm, Donald "comforted" the dead horse while waiting to be taken to hospital.
